Obituary.

Milwaukee, Lake Shore & Western Railway Company—Born 1873, died 1893, aged 20 years. The good die young.

The flourishing and prosperous village of Rhinelander is all that now remains to constantly remind the citizens of northern Wisconsin of the name of the L. S. railroad president Wisconsin ever knew.

While we are certain that no one man is absolutely necessary to the preservation or success of any great enterprise, we are not prepared to shout with the time server, "The King is dead, Long live the King," especially when the new king will have new theories of management.

Northern Wisconsin, from the north line of Waupaca county to Lake Superior, has been built up by the broad and liberal policy of the deceased, as outlined by F. W. Rhinelander, its president, and carried out by his faithful lieutenants, Whitcomb, Donahue and Thayer, all of whom are turned down to make way for new methods.

In memory of the dear departed, we recall two or three instances well known to some of our prominent citizens.

On Mr. Rhinelander's first visit to Pelican Rapids, having come up the Wisconsin by canoe, he said to his companions, "Here is the place for one of the best towns on the Wisconsin river," and by his direction, the agreement, now a matter of public record, was made by Mr. Thayer, acting for the railway company, and Messrs. Brown and Anderson at Stevens Point.

Some wise people have frequently remarked that the Lake Shore railroad was a piece-meal affair, built without plan or system. If they will read the document we refer to, observe its dates and its agreements to construct many miles of road within three years, they will come to the conclusion that the Lake Shore road was not a happen-so.

The next document of public record is the agreement of the Lake Shore road with the "Soo" road, also executed by Mr. Thayer, and which agreement has not the equal of a broad and liberal, at the same time, shrewd and far-seeing, policy. Aside from what the document itself says, the history of the transaction is as follows:

The Lake Shore company, by its Stevens Point agreement, became joint owners with the Browns of a large tract of real estate now consti-

tuting the village of Rhinelander and its vicinity.

General Washburn, then president of the "Soo," proposed building his road through Rhinelander, and demanded that the citizens should give free right of way, station grounds and an equal interest in the joint lands of the Browns and the Lake Shore. The citizens appointed a committee to confer with Mr. Rhinelander and ascertain what terms they could make with the Lake Shore people. General Washburn and Mr. Brown presented the case, to which Mr. Rhinelander replied: "I think Mr. Thayer will arrange the matter." And when Mr. Thayer asked for instructions, his reply was: "The prosperity of the people is our prosperity; I had rather have the one-half of \$15,000 of business than the whole of \$5,000," and the Lake Shore actually gave a large landed interest to secure the building of a competing road.

Would a Vanderbilt or a Gould have permitted this? If all of the railroads of Wisconsin had been managed with the same wisdom and regard for the prosperity of its localities, there would never be any fear of hostile legislation.

Of course, we shall be, with great particularity, told that there will be no change of policy. It is diplomatic to do so. No one will question the statement, but would like to know why all four of the persons who were representatives to the people or employees of the old order of things are retired.

A Warning From the Health Board.

The fourteenth annual report of the state board of health has been issued, and is a valuable document. A circular which accompanies the report also contains many useful hints to local boards of health. The circular says that every board of health should see first that its organization is legally complete, that its rules or ordinances are plain and sufficient, and that they are legally adopted and published. But it is also of special importance that boards of health and the people should understand some other things better than they do, or at least better than they seem to. The report tells you a sad but suggestive tale. Nearly 1,800 deaths from diphtheria in two years; more than 400 from scarlet fever; only 3 from small pox. Why this discrepancy? Certainly not because small pox is a less contagious or a less fatal disease than the others, but simply because the people are so much

more alive to the danger from it, that, notwithstanding a large proportion of the community may be protected by vaccination, first cases are always isolated and quarantined. Whether these diseases arise in other ways or not, it is very certain that their spread is always from contagion, and it is the full belief of the state board of health that if the same pains were taken to isolate the first cases of diphtheria, scarlet fever and typhoid fever that are now taken to isolate the first case of small pox, the death rate from these diseases would immediately and wonderfully diminish. It appeals to you, therefore, as the legally constituted guardians of the public health of your respective communities, for the exercise of such vigilance and firmness during your terms of office as will help to secure this most desirable result.

Keep your locality clean. Filth may not directly cause contagious diseases but it nevertheless has a very close relation to such diseases, because it furnishes the material in which their germs grow and multiply, from which they may and do enter the human system.

There is special danger in the water supply, if the well be within filtering distance of the privy or cess-pool, or of slops thrown on the ground, or if a public source of supply is contaminated by sewage. The germs of many diseases thrive in water which may be to the eye and to the taste seem all right, and it is through this medium that typhoid fever is chiefly spread, and that the cholera germ is usually carried.

Where there is pure soil, a pure water supply, a cleanly people, and a vigilant board of health prompt to quarantine the first case of contagious disease, there will be little to fear from epidemics of any kind. Last year, when it was announced that cholera had appeared in this country, a special circular was issued by this board, directed to health boards, and another, directed to citizens, urging such precautions as would form the best defense against this disease. A careful observance of their suggestions is urged upon you as the best safeguard not only against cholera but also against all diseases, especially against diphtheria, scarlet fever and typhoid fever, which being always present in some part of the state, may be carried to any community in it at any time.

The state board of health begs leave to remind you again of the law which requires physicians to report to you all cases of dangerous diseases.

Mr. J. C. Boswell, one of the best known and most respected citizens of Brownwood, Texas, suffered with diarrhoea for a long time and tried many different remedies without benefit, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was used; that relieved him at once. For sale at the Palace Drug Store.

There is no discounting the fact. The Chicago Herald is the cleanest, neatest and ablest edited newspaper in the west, if not in the United States. Its news service is unsurpassed, and its "scoops" its rivals in this respect in all others. The Herald has a larger circulation in Rhineland than any other Chicago paper. It can always be found on the counter of E. C. Leonard.

Wanted. Position by a young lady owning a new "Remington." Good references. Address "C. M.," Parrish, Wis.

The success of Mrs. Annie M. Beauré of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be exaggerated and cheerfully recommend it." 25 and 50 cent bottles for sale at the Palace Drug Store.

Frank Robbins brought a new team up from Waupaca county, which is a fine pair of drivers.

Miss Myrtle Chaffee is visiting friends at Antigo, who will accompany her on a visit to the World's fair.

The Minneapolis Stock Yards & Packing company will have fresh oysters for sale to-morrow (Friday).

J. A. Cushman is selling nursery stock in all the towns up in this country. He is doing a good business.

Clark & Lennon are ready to make prices that sell on everything that is needed in the line of builders hardware.

F. L. Hunt, one of the leading merchants of Phillips, was in town on business matters the first of the week.

Colin McMullen, a rising young attorney of Chilton, Wis., made the New North office a pleasant call yesterday.

Did you ever try to see how much soap—good soap—you can get at Langdon's for a quarter. Try it sometime.

Ben, Sweet and his sons, accompanied by some friends from below, put in the past week fishing at Pomahawk Lake.

Mrs. Geo. Huner, of this city, departed for Port Huron, Mich., last week where she will visit her parents for some time.

Miss Mame Charlton, who has been a guest at the Melndoe residence for some time, returned to her home in Iowa Monday.

Matt Hogan, formerly operator for the Western Union here, has returned from his western trip and is now at Appleton.

Mr. and Mrs. Charles Woodcock have rented rooms over Reardon's store, where they will begin house-keeping after Sept. 10.

E. G. Squier has purchased the lot next to D. J. Cole's, on Oneida avenue, and will begin the erection of a fine new house at once.

Miss Nellie Cole gives a party this evening to a number of young people in honor of her guest, Miss Etta Strope, of Stevens Point.

The firm of Fliegel & Woodzinski, doing business at Tomahawk Lake, has been dissolved. Charley Fliegel continues the business alone.

Congress may legislate the country into better times, but they can't legislate prices down any lower than Langdon has them on groceries.

A fishing party, consisting of G. S. Coon, E. S. Shepard, Perry Clark, George Dean and W. C. Ogden, spent a portion of the week at North Pelican fishing.

H. O. Howland removed his family and household goods to Oshkosh this week, where he is doing a good business, superintending agencies of the Crystal Sissors Sharpener.

If that handsome looking lady, dressed in a light colored suit, who passed by the postoffice yesterday will call at Langdon's, she will find some bargains for cash in groceries.

Charley Guldager returned to the city Sunday and is again working in Paul Browne's office. He reports the far west as a fine place to live, but a poor place to be looking for work.

Charley Clancy, formerly road-master for the Lake Shore at Ironwood, has just returned from a trip west for his health. He says the people of this section do not know what hard times are compared with those of the west.

James McGowan and A. Saltzman's new hotel on the corner of Stevens and Polina streets is up and nearly enclosed. The building makes quite an improvement in the looks of that part of the city.

CONSIN, THURSDAY, SEPT. 7, 189

Lytle & Harile will do lathing or shingling on short notice. Old roofs re-shingled. Leave word at Greeny's. Mail orders attended promptly. ml-6m

The hose house is now finely equipped for its necessities. Two men sleep there and can turn out with the wagon on as short notice as any could desire. A new set of drop harness for team has been ordered and when here will make it even better for quick work.

A. F. Quail has sold his meat market to Hunt Bros., of Phillips, who will take possession Saturday. They are first-class men, with experience in the business, and are an acquisition to the town. We are glad to say that Mr. Quail will remain here, going into something else—just what he does not know.

The new postal money orders which have been ordered by the government will soon be issued. In the system there is little or no complication. Sheets will be issued calling for amounts from 1 cent to \$3, which can be torn off to suit the purchaser. The postmaster will have no writing to do on it, the sender simply endorsing if the same as a check or a draft. One cent will pay charges on any amount to \$3, instead of 5 cents, as at present.

There is no more profitable season for newspaper advertising than during a general business depression, when a panicky feeling exists and the great mass of people feel impelled to economize in every possible way. When such conditions exist, the bargain announcements of the merchants are unusually attractive and many a man or woman, who ordinarily trades with some personal friend or at a store a little more convenient than others, will walk several blocks to save a dime.

James Howe was in this city a couple of days last week. He has left Eagle River permanently to take a position in the Government printing office. Jim is to be congratulated on his change. His job at Washington is a sinecure, as he is expected to do nothing more than print Thos. Lynch's speeches, which will give him plenty of spare time. He will also write notices of Tom which will be sent to Ninth district papers. Howe is a versatile writer and we may all look for some notices of great achievements from Our Tom.

The fire company did splendid work Friday night at the Hilber house blaze. In less than two minutes from the time an alarm was given, the hose wagon had arrived in front of the hotel and a connection with the hydrant had been made. The fire which started in the upstairs part over the kitchen, was blazing dangerously when discovered. The prompt action of the company stopped it when still small. The damage was light. All the guests were hustled out, at an unseemly hour, 3 a. m. and the fears of an extensive fire were not allayed for some time, owing to the great chance a blaze once under good headway would have in the buildings of that neighborhood. The town board's wisdom in buying the present outfit has been verified already more than once.

The stone crusher ordered by the town has been returned to the depot and refused by the board. There are many who believe that the machine did not work satisfactorily, and failed to come up to the maker's guarantee. The facts are hardly that. The crusher has had no fair trial. It has not been tried with power enough to run it, and until it is no idea of its usefulness can be had. It is not reasonable to suppose that any company is shipping machines around the country that are notable to do the work claimed, and that this machine can do it is known by anyone who takes the pains to inquire in cities and towns where they have been used. We are firmly of the opinion that the town board did a wise thing when it ordered the crusher, and that with it better roads can be made cheaper than by hauling gravel. Everyone who has seen the crushers work in other places is of this same opinion and it will take a more thorough trial than the machine has had here to make them change their mind. We need good roads and that will make them. It certainly hadn't ought to be thrown aside until it is known that it won't.

Socks, Hose, or Stockings.

It makes no difference what you call them. Its the quality tells and the Price that tells.
